PROFILE

Front-End Developer skilled in React.js, JavaScript, and responsive design, focused on building fast, scalable, and user friendly web applications. Strong problem-solver who collaborates effectively to deliver clean, efficient code.

WORK EXPERIENCE

- **Hexabirds Private Limited** June 2023 - May 2025
Frontend Web Developer
 - Designed and implemented scalable front-end architecture using React and Next.js, improving website performance by 30% and reducing page load time by 40%.
 - Developed and maintained clean, modular front-end code for 5+ client websites, including re-designs, updates, and production work, ensuring 100% adherence to coding standards and best practices.
 - Collaborated with a cross-functional team of 5 developers to deliver a responsive website, increasing user engagement by 20% and improving user retention by 15%.
 - Resolved 500+ bugs and optimized performance across 20+ web pages, achieving a Lighthouse performance score of 90+.

PROJECTS

- **Navkar Logistics**
This platform is for logistics and warehouse purpose. I built dynamic UI components that enhanced the user experience. I collaborated closely with my team members to optimize performance across devices.
- **Code Biosis**
Code Biosis is a modern, professional website designed to showcase the brand's expertise in technology and innovation. I enhanced its user interface to improve aesthetics and usability.
- **STSM**
This platform is an e-commerce management admin panel. Developed a React-based application that allow users to add products and view the list of products they have added.
- **Portfolio**
Designed and developed a responsive portfolio webpage using Next.js and Tailwind CSS, achieving a 90+ Lighthouse performance score.
- **Nits Decor**
This website is for interior designs.
